

### **Why Recruit an Art Student**

- The majority of our students are gaining specific technical skills whilst studying – such as industry-standard creative software packages
- Art students belong to the ‘ideas generation’ and can often come up with new and fresh ways of working
- They often have an enthusiasm and willingness to take on challenges
- They are highly adaptable
- Because of their training and specialist subject they are encouraged to work both in teams and on their own.

### **What you might be able to offer our students**

- A ‘live’ project
- Work placement
- Work experience
- Technical Guidance
- Professional & career guidance
- Mentoring
- Future Course Development
