

First Diploma in Art and Design 2009/2010

Holiday work 2009

The Sketchbook is an important tool for both artists and designers; it is used to record and develop ideas.

Sketch books will be used throughout your time on the 1st diploma course.

I would like you to start a new sketchbook and continue using it until you begin the course in September when I would like to look at what you have done.

In your sketchbook you can draw or paint directly from life and your imagination, stick in pictures, use collage, doodles, but keep it colourful, fresh and fun.

I look forward to seeing you in September.

Jacob Rock
