FERROUS FESTIVAL RETURNS

24

Ferrous 24 celebrates the best creative metalwork from the UK and around the world, with makers from over 30 different countries taking part, placing Hereford at the centre of excellence in artist blacksmithing.

This year's theme, *From Earth to Iron*, explores sustainability and the origin of materials. Delyth Done MBE, Head of the School of Materials & Design at Hereford College of Arts (HCA) and Course Leader of BA (Hons) Artist Blacksmithing, is the Creative Director of Ferrous. "Ferrous is a unique chance to see the work of artists and

designers working in metal from all over the world. It's an internationally facing festival, with an ethos of inclusive practice that you can't see anywhere else, and it's also an opportunity for our students to reach out to the community and to contribute. It's a chance to teach, to inspire, to participate, and to make a difference through making."
